

livingpah
More than medicine. More to life.

Be a part of a supportive community that understands the challenges of living with PAH.

We are not your usual pharmaceutical companies. Our CEO has a daughter with PAH and she has brought her personal passion to developing treatments for the disease. Her spirit motivates everyone who works for United Therapeutics Corporation and Lung Rx, LLC.

We see an opportunity to do more for patients by creating a comprehensive network of support, assistance and education called Living PAH.

With this program, we can help you learn more about your disease. There are people who can offer emotional support and others who can help you negotiate insurance claims and other hurdles. The community includes physicians, nurses, therapists and other people living with PAH.

This community would not exist without people who believe in our mission. When you join, you join others who are helping people live with PAH. You also join others like you - people who have walked this path before.

You can participate a little or a lot. You choose the resources you need and the support you want. It's up to you. You can talk about anything, from the really big questions to the day-to-day problems of living with PAH.

We can tackle questions about how PAH affects the way you live. We can help you calm a worried family member, talk to your friends and co-workers about chronic illness and even give you tips for beating back the blues.

Join Living PAH and get more education, support, connection and community.

livingpah.com

Because living with PAH brings new challenges, United Therapeutics Corporation and Lung Rx, LLC. have created a comprehensive program that can help you learn about your disease while providing emotional support, medical reimbursement assistance and more.

Here's what you can expect from Living PAH:

- Education, news and support
- Help with handling reimbursement, co-pays and more
- The opportunity to talk to others living with PAH
- Personal help when you feel overwhelmed by the challenges of living with PAH or just need someone to talk to who will help guide you down the path you're traveling
- Registered nurses available through the Living PAH Call Center to answer general questions about PAH

To learn more about this program or to enroll, please contact the Living PAH call center at (877) 948-9137 or visit livingpah.com.
